fun

Our fresh Natural Grain Cage Free eggs are laid by healthy, grain fed
hens that are free to roam in large, safe barns where they can perch, flap their
wings, and lay their eggs in nests whenever they choose. The open sided
barns ensure the hens enjoy fresh air and natural light, in a clean, safe
environment, protected from predators and the elements.

These eggs are collected each day by hand, and are Egg Corp Assured for
quality to ensure only the finest quality fresh eggs make it to your table.

Sunny Queen Farms is proudly 100% Australian Farmer Owned, with
farms located across Australia.
